PROJECT EXPERIENCES

GlycoPlate – IoT-Based Smart Glycemic Plate for Dietary Monitoring
March 2026 - May 2026

- Developed GlycoPlate, an IoT-based smart dietary monitoring system to measure food portions and track dietary intake in real time.
- Implemented AI-powered food recognition and glycemic analysis, enabling users to scan meals, estimate glycemic impact based on food type and portion size, and maintain dietary records through a mobile application's history and monitoring features.

JustiFi – A Mobile-Based Complaint Management System
2025 - 2026

- Developed JustiFi, a mobile-based multi-barangay complaint management system with AI-assisted complaint handling, real-time tracking, automated responses, analytics, and service request features.
- Enhancing user experience by streamlining the intake process to reduce response time and improve efficiency.

WORK HISTORY

IT Intern – Five Star Marine Services Corp.
October 2025 - December 2025

- Assisted the IT department in providing technical support, maintaining computer systems, updating software, and troubleshooting basic hardware and software issues. Supported web development and administrative tasks, including website updates, documentation, presentation preparation, and other technology-related activities while gaining hands-on experience in a professional work environment.

LEADERSHIP EXPERIENCES

Domini Xode – Student Council
2022 - 2025
Vice President - Internal

- Coordinated and supervised internal organizational activities and projects.
- Ensured smooth connection between departments to achieve goals.

The Gateway Group of Publications
2023 - 2026
Feature Editor

- Reviewed and refined feature articles and publication materials to ensure accuracy, clarity, consistency and overall quality.
